FLUID ACRYLIC POURING PAINT

FLUID ACRYLIC POURING PAINT 120 ml

Highly fluid acrylic paint that is perfect for pouring finishes. Pouring is an abstract painting technique that allows, by mixing various colours, to obtain works with soft abstract shapes. This paint is also used to create marble effect finishes. It is suitable for use on canvas, wood, glass, plastic and any other support for acrylic paints. Very easy to apply and to mix with the medium to create more fluid or thicker finishes. Dries to the touch in 4 hours and completely dry in 24 hours. A sealer can be applied to prevent the paint from cracking and to give it a more professional finish. 120 ml bottle.
